Education

- Japan Digital University
- Kyoto Tachibana University
- Uzbekistan State World Languages University

University graduation year: April 2027

Summary

I am studying IT at Japan Digital University and working on various programming projects. For example, I am developing an **Education Management System** for our university, which includes features such as **student and teacher management, class schedules, grading, and AI-driven educational analytics.**

Additionally, I am working on expanding my **online store, "Qulay_Shop_Uz,"** and my **travel agency, "QulayTour.uz."** Furthermore, I have written a book titled **"Bir Kunda Bir Suhbat,"** which helps learners improve their Japanese conversational skills, and I am developing an **online platform** to complement it.

Languages

Uzbek: First Language

Japanese: N2
Upper Intermediate

Turkish: C1
Advanced

Hobbies and interests

I am passionate about technology and enjoy exploring new programming languages. Besides coding, I like reading self-development and psychology books. In my free time, I travel, play chess, and work on projects.
